Reply to Office Action dated 2/11/2009

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 11 February 2009. In the Official Action, the Examiner has found two inventions, namely, Group I directed to Claims 14-22, 24, 25, 36 and 48 drawn to an external/internal cardiac alarm system; and Group II directed to Claims 37-47 drawn to a system to assess cardiac function. The Examiner has required that Applicant choose one Group for further prosecution in this case.

By this Amendment and Response, Applicant elects Group II directed to Claims 37-47. Claims 1-36 and 48 have been withdrawn.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
